

Free // Week 2

1) Define the terms:

1) What does “justified” mean?

One way to define it is “to declare righteous or free.” It’s a legal term where someone is declared right, upright, just, e.i. forgiven.

2) What does “righteousness” mean?

Comes from the same Greek root as “justify.”

2) The Galatians had already received the gift of the Holy Spirit and faith. Why do you think the Galatians wanted to be justified by the law instead of faith?

3) Why do you think it was difficult for the Galatians to rely on the gift of the Holy Spirit and faith for their justification/righteousness?

4) How do you see yourself and others relying on the law/works for justification before God?

5) Why is it difficult for you to rely on the gift of the Holy Spirit and faith for your justification?

6) What does it mean for you to live by faith this week?
